II. SCOPE OF WORK

1. The State shall submit a program containing the aforementioned project to FHWA with the recommendation that it be approved for construction.

a. If such project is approved for construction by FHWA and the funds are available for construction of the project, the State with the aid and consent of FHWA will authorize the Railroad Company to proceed with the work covered by the State-Railroad Agreement and will request the maximum federal funds available.

b. Should some unforeseen conditions or circumstances increase the cost of said work required by a change in the extent or scope of the work called for in this agreement, the State shall not be obligated to incur any expenditure in excess of the amount of the County's deposit unless and until so authorized in writing by the County.

2. The County shall acquire, without cost to the State, the necessary right-of-way and hereby certifies that all necessary rights-of-way have been or will be acquired.

3. Once acquired, the County shall remove from the County right-of-way all obstructions or unauthorized encroachments of whatever nature, either above or below the surface of the roadway, and hereby certifies that all obstructions and encroachments have been or will be removed therefrom.

4. The County shall not permit or allow any encroachments, except those authorized by permit, upon, or private use of, the County right of way. In the event of any unauthorized encroachment or improper use, the County shall take all necessary steps to remove or prevent any such encroachment or use; failing in which the State shall have the right to proceed with the removal or prevention thereof, the cost of such removal or prevention to be borne by the County.

5. Upon completion of construction, the County shall provide for, at its own cost and as an annual item in its budget, proper maintenance; such maintenance (exclusive of maintenance by the Railroad Company of its facilities) to include, but not be limited to, traffic signals, signs, islands, curbs and markings necessary for the purpose of regulating, warning and guiding traffic.

6. The County shall mark and sign railway-highway grade crossings in accordance with the requirements of the current edition of the Manual on Uniform Traffic Control Devices for Streets and Highways.

7. By such regulation as it may by ordinance provide, the County shall regulate parking and not permit vehicles to be left on the street in any manner other than at and parallel with the curb and to restrict parking so as to prevent conflicts with moving traffic.

III. MISCELLANEOUS PROVISIONS

1. The State assumes no financial obligation or liability under this agreement, nor for any resulting construction project. The County, in regard to the County's relationship with the State only, assumes full responsibility for the design, plans, specifications, reports, the engineering in connection therewith and the construction of the improvements contemplated, cost over-runs and construction claims. Such assumption of the responsibility by the County for the benefit of the State in no way acts as a waiver by the County for the benefit of the railroad company or any responsibility the railroad company has in the design, plans, specifications, reports, the engineering in connection therewith and the

construction of the improvements contemplated, cost overruns and construction claims. It is understood and agreed that the State's participation is confined solely to securing federal aid; that any damages arising from carrying out, in any respect, the terms of this agreement or any modification thereof, shall be solely the liability of the County and that the County hereby agrees to save and hold harmless and indemnify from loss the State, any of its departments, agencies, officers or employees from any and all cost and/or damage incurred by any of the above and from any other damage to any person or property whatsoever, which is caused by any activity, condition, or event arising out of the performance or nonperformance of any provisions of this agreement by the State, any of its departments, agencies, officers and employees, the County, any of its agents, officers and employees, or any of its independent contractors. Costs incurred by the State, any of its departments, agencies, officers or employees shall include in the event of any action, court costs, expenses of litigation and attorneys' fees.

2. The cost of the design, construction and construction engineering work covered by this agreement is to be borne by FHWA, Arizona Corporation Commission and the County, each in the proportion prescribed or as fixed and determined by FHWA as stipulated in this agreement. Therefore, in the event that funds to match federal funds are not made available by the Corporation Commission, the County agrees to furnish and provide the State with County funds in an amount equal to the difference between the total cost of the work provided for in this agreement and the amount of federal aid received.

3. This agreement shall remain in force and effect until completion of the work herein embraced; provided, however, that any provisions in this agreement for maintenance shall be perpetual, unless assumed by another competent governmental entity.

4. This agreement shall become effective upon filing with the Secretary of State.

5. This agreement may be cancelled in accordance with Arizona Revised Statutes Section 38-511.

6. The provisions of Arizona Revised Statutes Section 35-214 are applicable to this contract.

7. In the event of any controversy which may arise out of this agreement, the parties hereto agree to abide by required arbitration as is set forth for public works contracts in Arizona Revised Statutes Section 12-1518.

Bev Staddon, having been first duly sworn, deposes and says:

I am the duly appointed, qualified and acting Clerk of the Yavapai County Board of Supervisors and in such capacity under the provisions of ARS §11-241 am charged with the responsibilities, among others, of recording all proceedings of the Board and maintaining custody of such records of the Board as are required by law to be maintained. Among the records of which I have custody is the official minute book of the Board of Supervisors which under the provisions of ARS §11-217 is required to be made and kept.

Set forth below is a copy of an entry in the aforesaid minute book of which, as aforesaid, I am the officer having the legal custody. This is my certificate under the provisions of Rule 44(A), Rules of Civil Procedure, and the Uniform Business Records Act, that the said copy is a true and correct copy thereof, to which I attest by my signature subscribed hereunto:

Date of meeting of which the minutes are a record: May 22, 1995.

The entry in the said minutes:

Public Works Director Richard Straub appeared before the Board to request that safety improvements to Bullock Road at the Atchison, Topeka & Santa Fe crossing be added to the project list, with no matching funds or approach work required from the County at this time. He told the Board that this was a safety project which would be funded by the federal and state governments, and that the County was being asked only to administer the actual contract work. He said that it would be necessary to establish this as a project before proceeding with any work. Supervisor Brownlow noted that this was the railroad crossing that the railroad had attempted to close some years earlier, and that it was the only access in to the Juniper Woods subdivision. Supervisor Brownlow moved to approve the request. Supervisor Camp seconded the motion, which, in the absence of comments from the public, carried by unanimous vote.
